[...]

Amarok is definitely the best player I have ever used. My colleagues at work envy me because they use M\$ windows and they cannot find equivelant for this amazing player. It is simply AMAZING. Keep up the good work guys.

thank you for making such a wonderful
program now I don't have to use
windows!

What's next?

- amarok 1.4
- ATF (Advanced Tag Features)?
- Creative Nomad Jukebox Support?
- Fuzzy Search?
- amarok 1.5?
- amarok 2.0
 - basierend auf KDE 4, Qt 4
 - Veröffentlichung zeitnah zu KDE 4

Fuzzy Search?

The screenshot shows the amarok music player interface. The search bar contains the text "~~chakira oios asi". The search results are displayed in a table with columns for Title, Artist, Album, Track, and Length. The results are:

Title	Artist	Album	Track	Length
An...	Pur Ni...			4:48
Ko...	Pur Ni...			3:04
Ni...	Pur Ni...			4:02
W...	Pur Ni...			4:18

The interface also shows a sidebar with a "Group By" menu, a playlist area with "Ojos Asi" by Shakira, and a playback area with "17 tracks (1:19:11)" and a progress bar at 78%.

What's next?

- amarok 1.4
- ATF (Advanced Tag Features)?
- Creative Nomad Jukebox Support?
- Fuzzy Search?
- amarok 1.5?
- amarok 2.0
 - basierend auf KDE 4, Qt 4
 - Veröffentlichung zeitnah zu KDE 4
